indicatorName	Updated National Action Plan on the containment of antimicrobial resistance
Pss Insight Indicator	PLG04
Definition	In May 2015, the Sixty-eight World Health Assembly adopted the global action plan on antimicrobial resistance. The goal of the global action plan is to ensure, for as long as possible, continuity of successful treatment and prevention of infectious diseases with effective and safe medicines that are quality-assured, used in a responsible way, and accessible to all who need them. The World Health Assembly also urged all Member States to develop and have in place by 2017, national action plans on antimicrobial resistance that are aligned with the objectives of the global action plan.
Topic	Policy Laws and Governance
assessmentQuestions	Has the country developed and published a national action plan on the containment of antimicrobial resistance? What is the year of the most recent update or revision of the action plan?
