Description: string

## Policy Laws and Governance

indicatorName	An institutional development plan of the national medicines regulatory authority based on the results of the GBT exists
Pss Insight Indicator	PLG01
Definition	<p>The Global Benchmarking Tool (GBT) represents the primary means by which the World Health Organization (WHO) objectively evaluates regulatory systems, as mandated by WHA Resolution 67.20 on Regulatory System Strengthening for medical products. The tool and benchmarking methodology enables WHO and regulatory authorities to:</p> <ul style="list-style-type: none"><li>11 identify strengths and areas for improvement;</li><li>facilitate the formulation of an institutional development plan (IDP) to build upon strengths and address the identified gaps;</li><li>prioritize IDP interventions; and</li><li>monitor progress and achievements.</li></ul>
Topic	Policy Laws and Governance
assessmentQuestions	<p>Has the country completed at least 1 GBT assessment? (institutional development plan)</p> <p>Has the country developed and published an institutional development plan as a result of the last GBT exercise? (institutional development plan)</p>
